## LEDSB200F Solar LED Brick

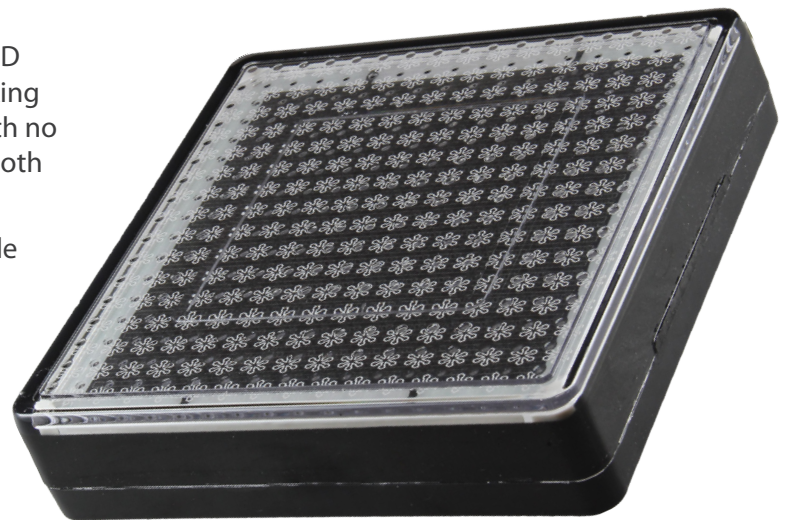

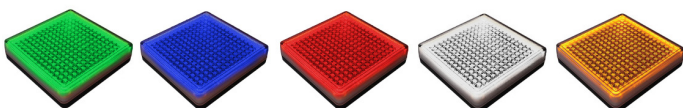

Running on 100% solar energy, the LEDSB200F is an LED brick light that requires no external power source, making it not only extremely cost-effective over its lifetime, with no ongoing energy costs, but also ensuring less effort in both installation and ongoing maintenance.

Its robust and waterproof construction makes it suitable for a wide variety of applications, including fountain lighting and footpath lighting in dew-prone areas. The LEDSB200F makes an excellent light for gardens, walkways, and open public areas, with a simple and attractive profile, powerful light output, and no reliance on cables.

### FEATURES

- Powered by environmentally-friendly solar energy
- No energy consumption costs
- No CO<sub>2</sub> emissions
- Self-contained - no external power source needed
- Waterproof
- Suitable for fountains and other wet areas
- Robust construction
- No cable laying work or regular maintenance required
- Long lifespan
- Cost-effective over its lifespan
- Suitable for gardens, parks, walkways, fountains, and other exposed areas

### AVAILABLE COLOURS

### SPECIFICATIONS

PRODUCT CODE	LEDSB200F
Size	196x196x45mm
Weight	1.8kg
Material	Polycarbonate, ABS
Solar Cell	3W
Battery	LifePO4 (2,000mAh) or Hybrid
Operating Temperature	-20°C ~ +65°C
Illumination (lux)	White Standards (75 lux)
Operating Time	Over 5 days (fully charged)
Life Expectancy	7-10 years
Waterproof Rating (IP)	IPX8
Colour	Red, Green, Blue, Yellow, White

When ordering add suffix to determine colour:

-RD = Red

-YL = Yellow

-GN = Green

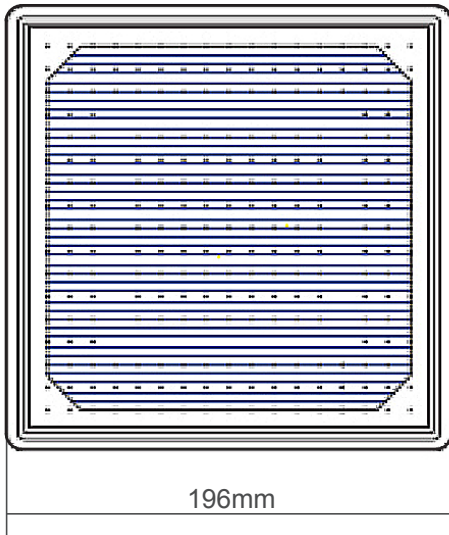

-WH = White

-BL = Blue
