

TEMPORARY LED LIGHT STANDS

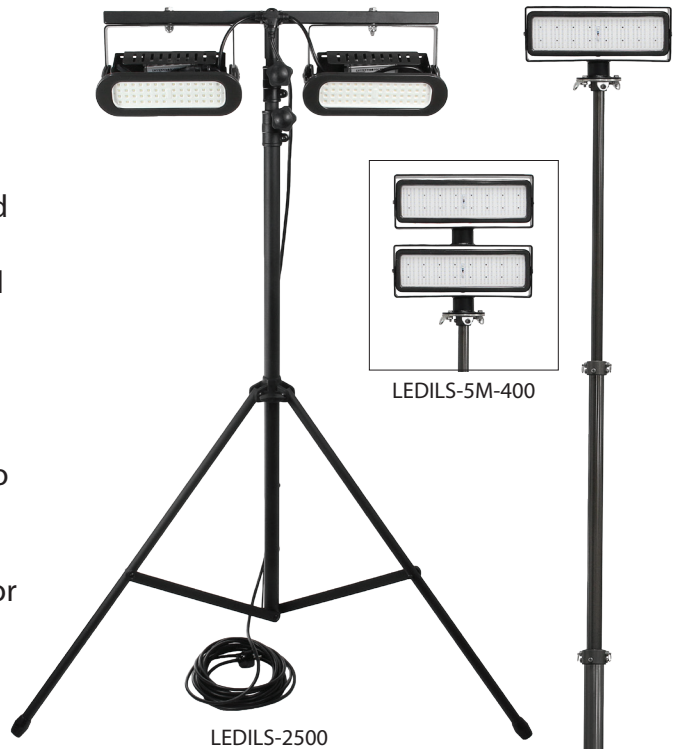

There are three ranges of temporary light stands available with various combinations of lights to offer a solution for all applications. All are fast and easy to erect and pack away, and the LED lights don't get hot - so no need to wait for them to cool before you pack them away.

FEATURES:

- Completely portable and simple to use
- Stands are telescopic so stand can be adjusted to the exact height you require
- Kits come complete so they are simply plug and play (custom kits are also available, contact us for more information)
- LED fittings are rugged and durable, they will stand up to the knocks

IDEAL FOR:

- Building sites
- Workshops
- Sports events
- Temporary Carpark lighting
- Utility unplanned fault work

FEATURES

Slim & compact design for ease of storage - telescoping stand
USB outlet to charge other devices
4-5 hour battery run time
Two light level settings - 100% & 50%
Bluetooth connection function to play music
Rechargeable Li-ion battery
12V DC & 230V AC charger
Optional spare battery - leave one charging while the other is in use

The perfect portable work light stand. Available in 20W, 50W and dual 50W, this rechargeable battery powered LED floodlight stand is a must have for all tradesmen.

IDEAL FOR:

- Workshops or construction sites
- Heat sensitive situations - LEDs are cool running
- Places where the light direction is moved often
- Areas where there is no mains power supply
